## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities:

On page 3, line 20, the representation of “(10, n, q)” after “compound II” should be changed to -- (10, p, q) -- to correct the typographical error.

On page 6, line 1 and line 4, the “5çJ” should be changed to -- 5 °C -- to correct the typographical error.

On page 7, line 5, the representation of “(10, n, q)” after “compound II” should be changed to -- (10, p, q) -- to correct the typographical error and on page 8, line 8, the representation of “(10, n, q)” after “compound II” also should be changed to -- (10, p, q) -- to correct the typographical error.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

Art Unit: 1756

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 3 is rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP 63-307837.

The reference discloses a novel optically active compound represented by formula (1) (see English abstract). The compounds of the reference formula ( $l=10$ ,  $m=2$ ,  $n=1$ ,  $A=B=CO_2$  and  $R^*=C(CH_3)COOC_3H_7$ ,  $C(CH_3)COOC_4H_9$  and  $C(CH_3)COOC_5H_{11}$ ) anticipate the claimed compound (when  $p=0$ ,  $q=2,3$  and  $4$ ). If not anticipated by the reference because the reference compounds are not exemplified, it would have been obvious to those skilled in the art to modify the chain-length of compound 22 to  $l=10$  (on page 266) to arrive at the claimed compound.

***Allowable Subject Matter***

5. Claims 2 and 4 are allowed.

***Response to Arguments***

6. Applicant's arguments with respect to claim 3 have been considered but are moot in view of the new ground of rejection. See section 4 above.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1756

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
